employees, products,
and sales using SQL
queries

Customer Insights

🇩🇪 Do higher credit limits lead to more orders?

MySQL Workbench

Query 1: customers offices employees orders orderdetails products

```
-- Do higher credit limits lead to more orders?
145
146 * SELECT c.customerName, c.creditLimit,
147       COUNT(o.orderNumber) AS total_orders
148 FROM customers c
149 JOIN orders o
150 ON c.custId = o.custId
151 GROUP BY c.customerName, c.creditLimit
152 ORDER BY c.creditLimit DESC;
153
154
```

Table: categories

Columns:

- category
- htmlDescription
- image

Result Grid

customerName	creditLimit	total_orders
Diego	227600.00	26
Susan	210500.00	17
Mihael	141300.00	2
Jeff	138500.00	4
Rachel	136800.00	3
Mary	123900.00	3
Marta	123700.00	2
Maurizio	121400.00	3
Palle	120800.00	2
Henriette	120400.00	2

🏆 Rank customers by total spending

MySQL Workbench

Query 1: customers offices employees orders orderdetails products

```
-- Rank customers by total spending ?
109
110 * SELECT c.customerName,
111        SUM(od.quantityOrdered * od.priceEach) AS total_spent,
112        RANK() OVER (ORDER BY SUM(od.quantityOrdered * od.priceEach) DESC) AS customer_rank
113 FROM customers c
114 JOIN orders o ON c.custId = o.custId
115 JOIN orderdetails od ON o.orderNumber = od.orderNumber
116 GROUP BY c.customerName
117 ORDER BY total_spent DESC
118 LIMIT 10;
```

Table: categories

Columns:

- category
- htmlDescription
- image

Result Grid

customerName	total_spent	customer_rank
Diego	820689.54	1
Susan	591827.34	2
Julie	388279.27	3
Mike	200102.87	4
Juri	188885.54	5
Sue	186106.64	6
Peter	180585.07	7
Jeff	177913.95	8
Elizabeth	173422.72	9
Janine	158573.12	10

Who are the top 5 customers by credit limit?

MySQL Workbench

Query 1: customers

```
-- Who are the top 5 customers by credit limit?
12
13 * SELECT custId , customerName ,country, creditLimit
14 FROM customers
15 ORDER BY creditLimit DESC
16 LIMIT 5;
17
```

Result Grid

custId	customerName	country	creditLimit
141	Diego	Spain	227600.00
124	Susan	USA	210500.00
298	Mihael	Switzerland	141300.00
151	Jeff	USA	138500.00
187	Rachel	UK	136800.00

Which countries have the most customers?

MySQL Workbench

Query 1: customers

```
-- Which countries have the most customers?
5
6 * SELECT country , COUNT(*) as customers_per_country
7 FROM customers
8 GROUP BY country
9 ORDER BY customers_per_country DESC;
10
```

Result Grid

country	customers_per_country
USA	37
Germany	13
France	12
Spain	7
Australia	5
UK	5
Italy	4
New Zealand	4
Norway	3
Singapore	3
Finland	3
Canada	3
Switzerland	3
Sweden	2
Denmark	2
Portugal	2

“Customer analysis shows where our buyers come from, who the top spenders are, and how credit limits influence order behavior. This helps segment customers for better targeting.”

Employee & Department Insights

Top employees by total sales generated

The screenshot shows the MySQL Workbench interface with a query editor and a result grid. The query is as follows:

```
-- Top employees by total sales generated
SELECT e.empName, e.jobTitle,
       SUM(od.quantityOrdered * od.priceEach) AS total_sales
FROM employees e
JOIN customers c ON e.eId = c.salesRepEmployeeNumber
JOIN orders o ON c.custId = o.custId
JOIN orderdetails od ON o.orderNumber = od.orderNumber
GROUP BY e.empName, e.jobTitle
ORDER BY total_sales DESC
LIMIT 10;
```

The result grid displays the following data:

empName	jobTitle	total_sales
Gerard Hernandez	Digital Marketing	1258577.81
Leslie Jennings	Sales HOD	1081530.54
Pamela Castillo	Sales Rep	868220.55
Larry Bott	Admin	731519.19
Barry Barry	Sales Rep	704853.91
George Vanauf	Sales Rep	666050.35
Peter Peter	Sales Rep	584593.76
Loui Bondur	Sales Rep	569485.75
Andy Fixter	Sales Rep	562582.59
Steve Patterson	Dept Head	495651.59

Who are the top 5 highest paid employees?

The screenshot shows the MySQL Workbench interface with a query editor and a result grid. The query is as follows:

```
-- Who are the top 5 highest paid employees?
SELECT empName, jobTitle, salary
FROM employees
ORDER BY salary DESC
LIMIT 5;
```

The result grid displays the following data:

empName	jobTitle	salary
Diane Murphy	President	50000
Tom son King	Regional Head	47520
Pamela Castillo	Sales Rep	45883
George Vanauf	Sales Rep	43346
Julie Ferrell	Sales Admin	36880

What is the average salary by department?

The screenshot shows the MySQL Workbench interface with a query editor and a result grid. The query is as follows:

```
-- What is the average salary by department?
SELECT department, AVG(salary) as avg_salary
FROM employees
GROUP BY department
ORDER BY avg_salary DESC;
```

The result grid displays the following data:

department	avg_salary
2	29657.8000
5	26158.4286
1	25796.0000
4	24512.0000
3	22189.0000

How many employees work in each office?

The screenshot shows the MySQL Workbench interface with a query editor and a result grid. The query is as follows:

```
-- How many employees work in each office?
SELECT o.city, COUNT(e.eId) AS total_employees
FROM employees e
JOIN offices o ON e.officeCode = o.officeCode
GROUP BY o.city
ORDER BY total_employees DESC;
```

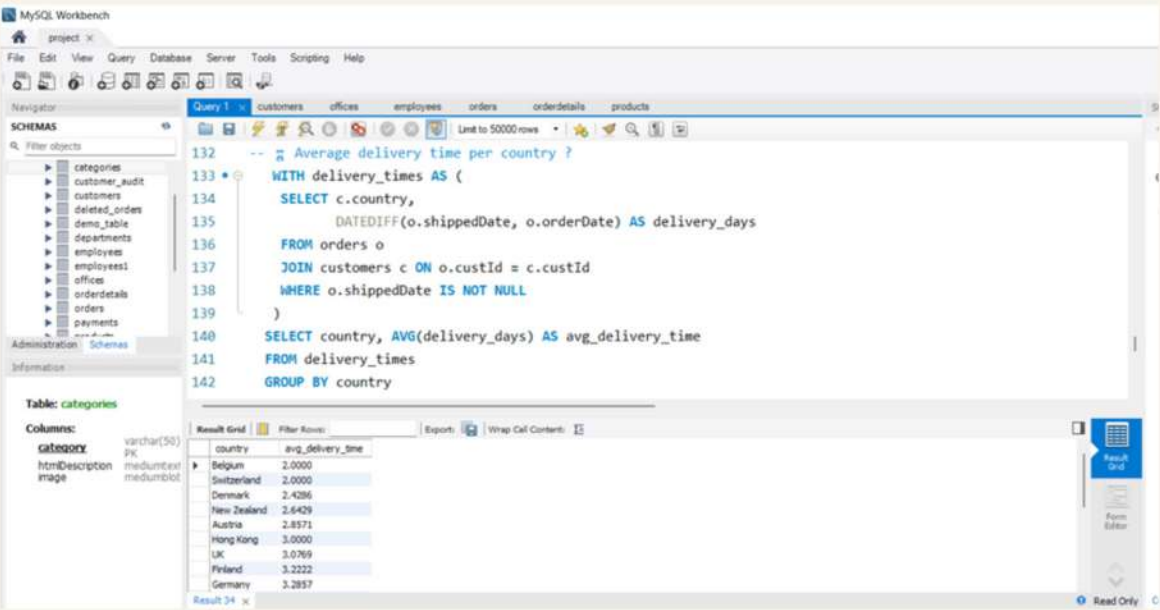

The result grid displays the following data:

city	total_employees
San Francisco	6
Paris	6
Sydney	4
Boston	2
NYC	2
Tokyo	2
London	2

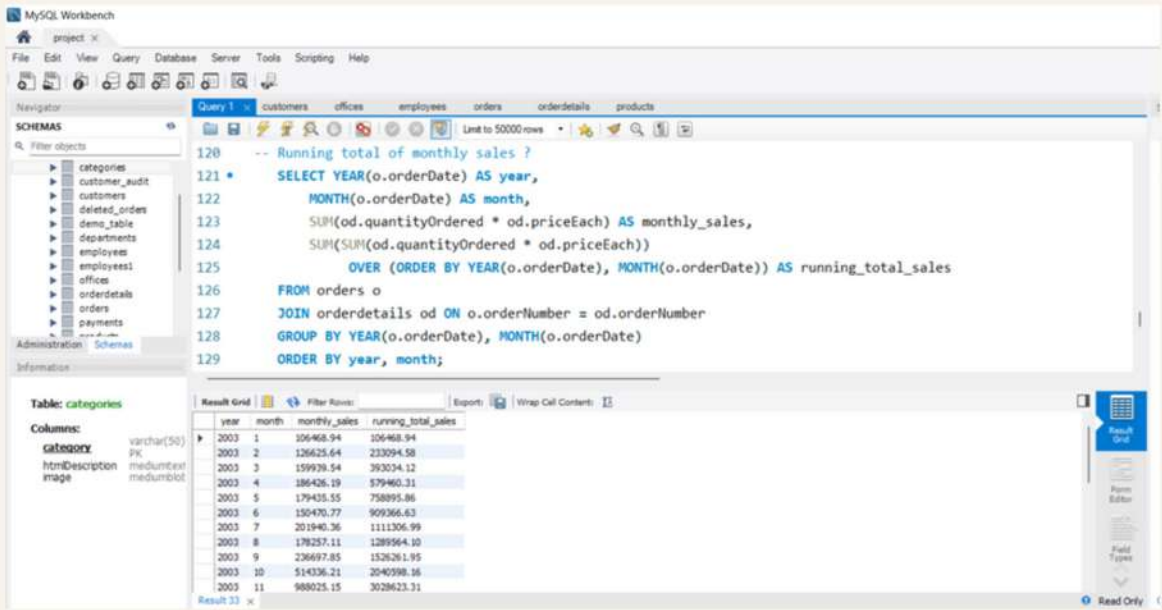

“Employee performance insights highlight which offices and sales reps contribute the most revenue. Useful for HR and management decisions.”

Sales & Revenue Insights

 Average delivery time per country

 Running total of monthly sales

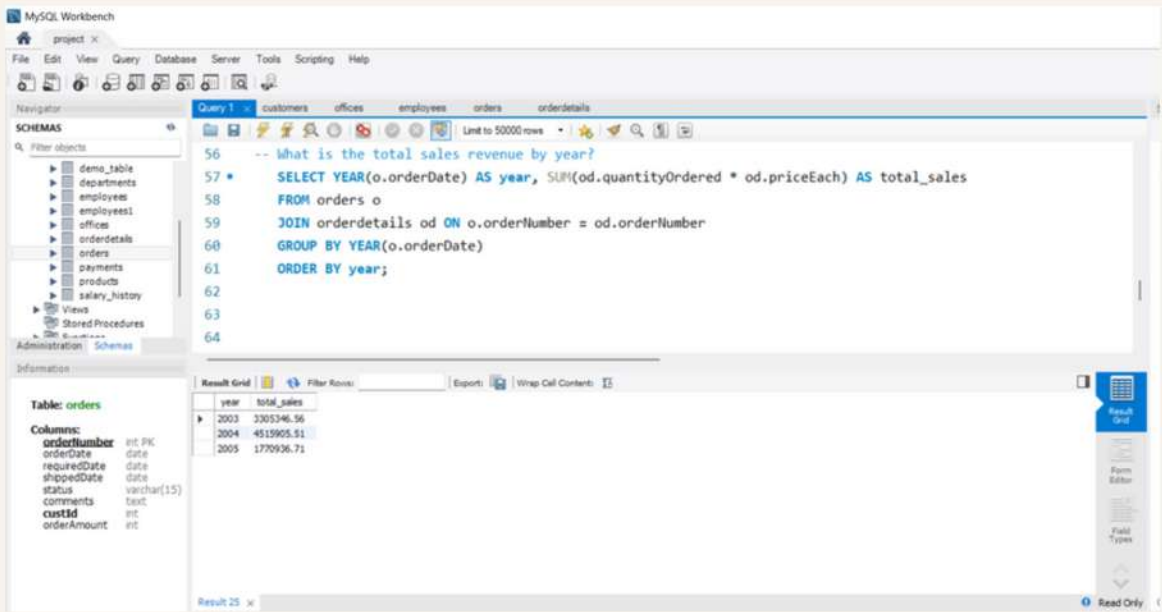

How many orders are there per year?

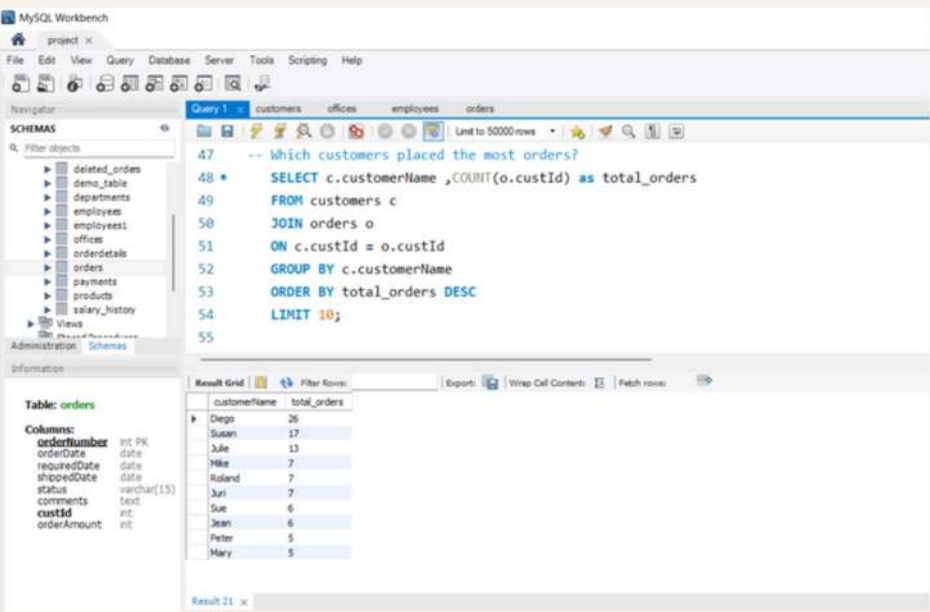

Which product categories generate the most revenue?

What is the total sales revenue by year?

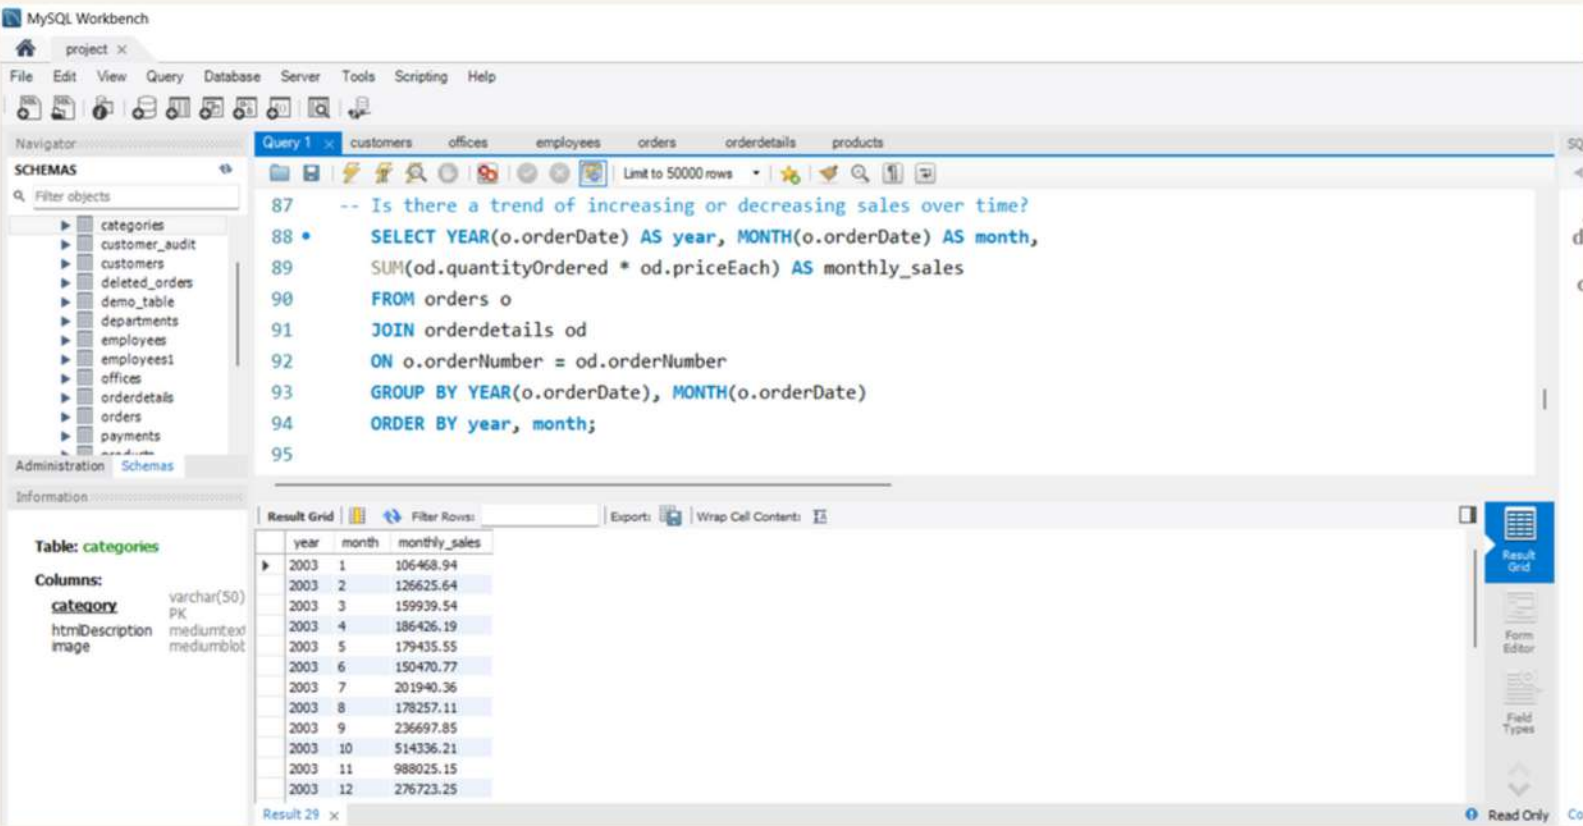

Which customers placed the most orders?

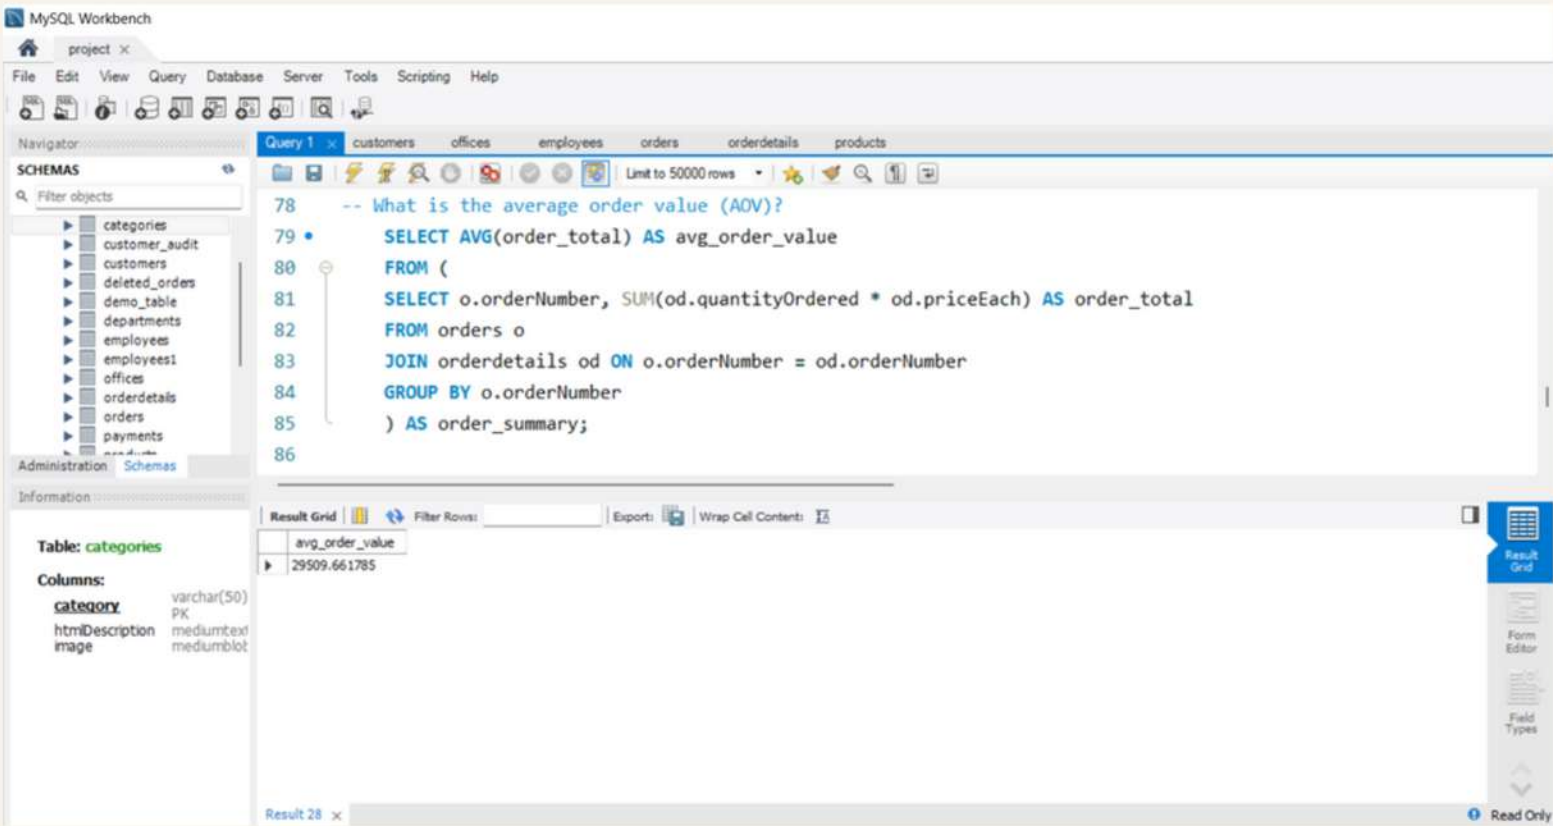

“Sales analysis uncovers yearly revenue trends, category-wise performance, and delivery efficiency. Comparing order totals across tables ensures data accuracy and trust.”

Product Performance

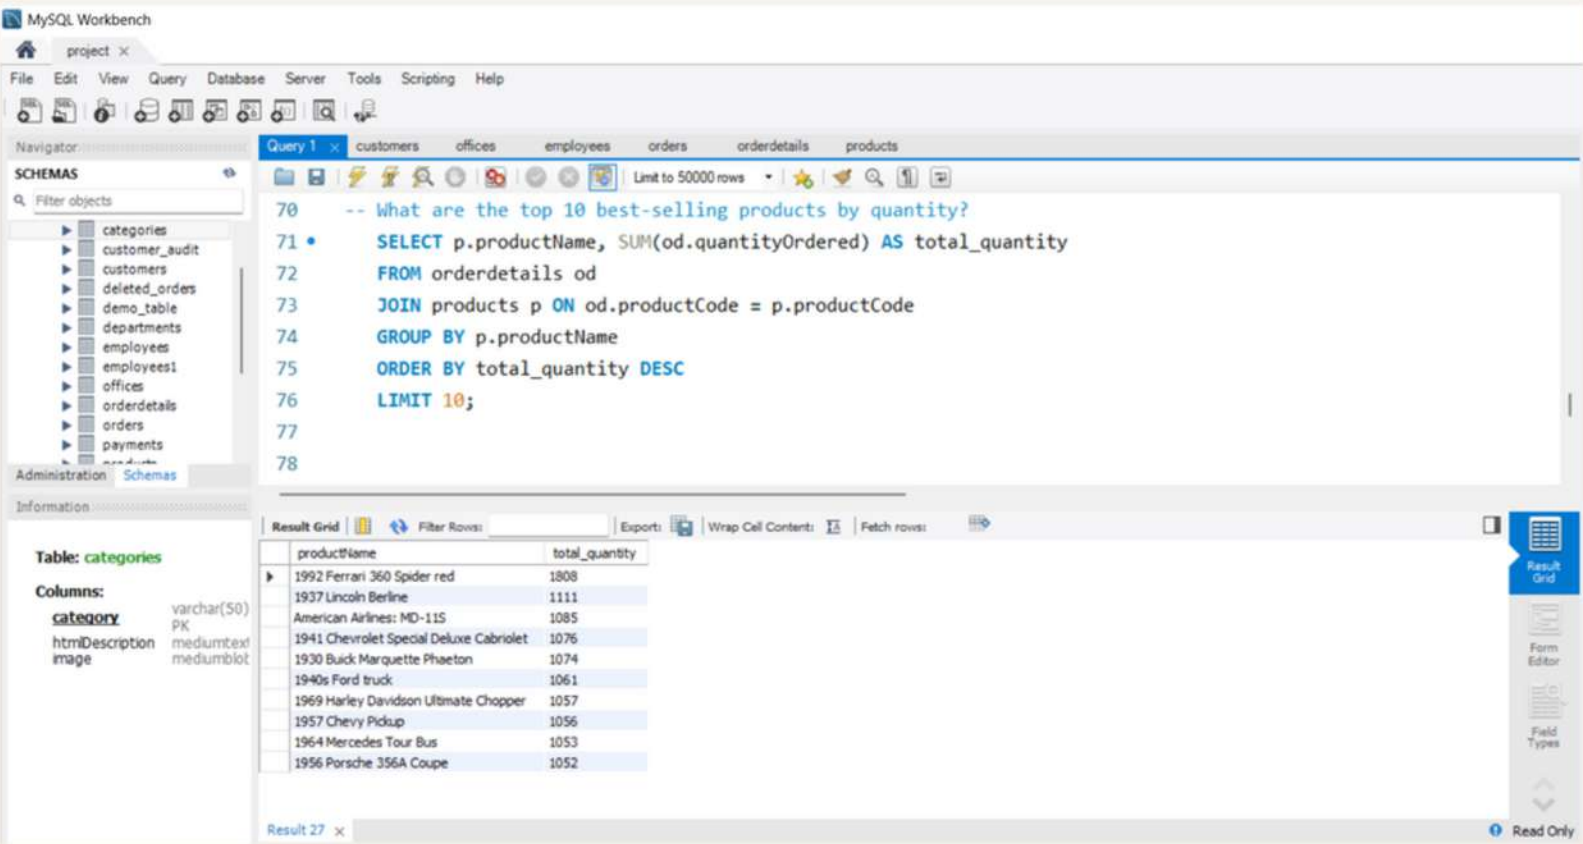

Is there a trend of increasing or decreasing sales over time?

What is the average order value (AOV)?

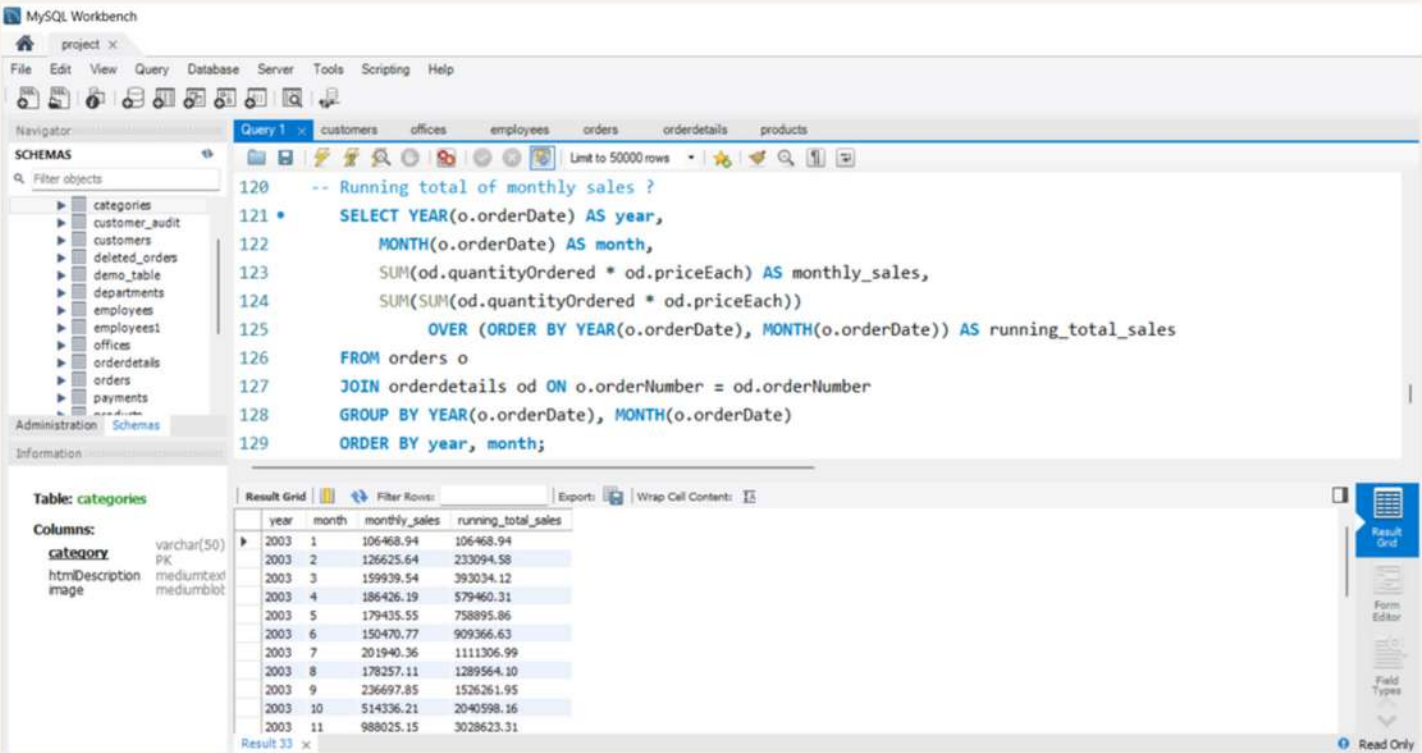

What are the top 10 best-selling products by quantity?

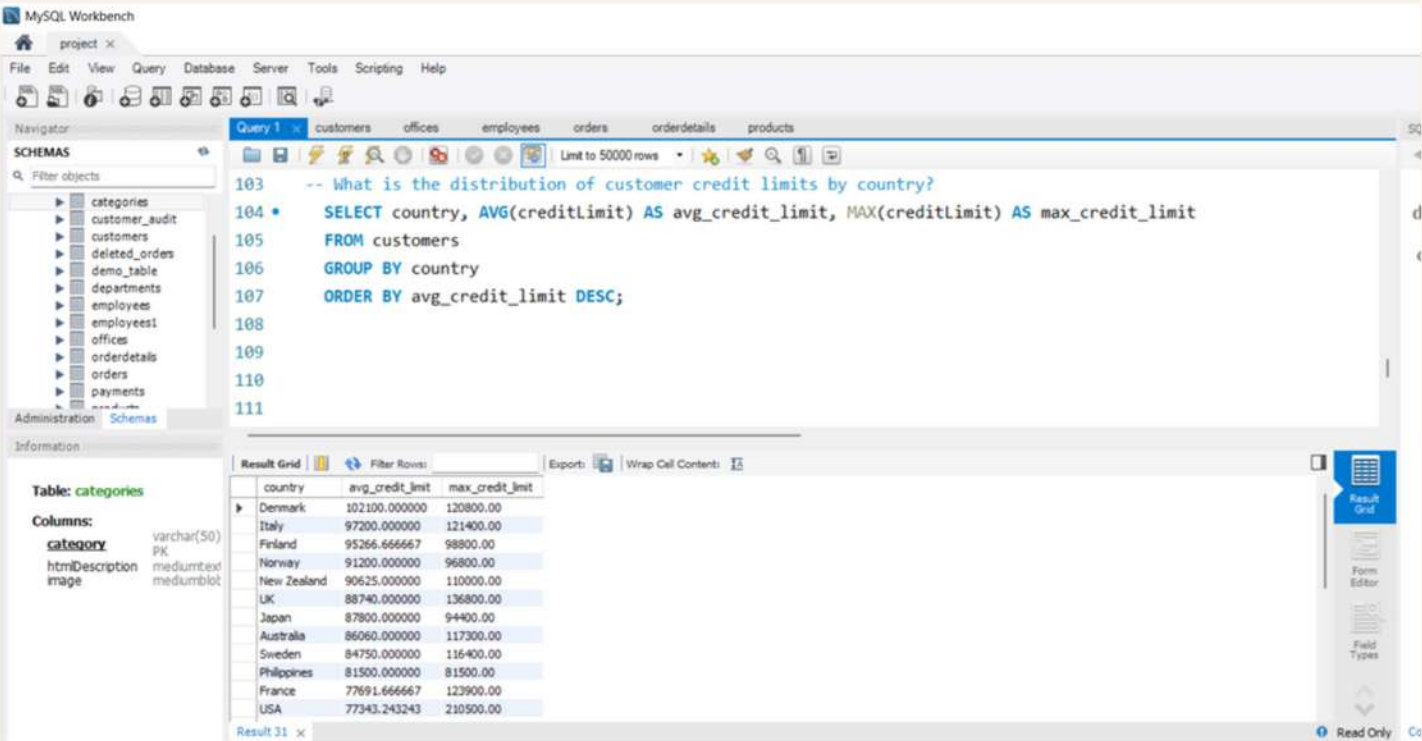

“Product insights reveal best-sellers and average order values, guiding inventory planning and pricing strategies.”

Trends & Advanced Analytics

 Running total of monthly sales

What is the distribution of customer credit limits by country?

Which sales reps handle the most customers?

“Advanced analytics track customer growth, revenue distribution, and cumulative sales over time. These trends support long-term forecasting and business planning.”
